

# The Baileia

A Collection  
of  
Short Stories

# *About Carlsbergo*

## *Chapter One*

*Aanika sanged a great song when she was on earth.*

*It goes thus:*

*God spoke to the sons of Manika. He told the first son to make buildings and teach the making of buildings. He agreed.*

*God told the second son to answer prayers in Eduabon, Achicha and Ikillla. He agreed.*

## *Chapter Two*

*Aanika died and was judged to go to heaven. She was assigned to work under Zarr (the Lord of Records).*

*Her station was to assist Zarr in keeping records for the Gods.*

*After a lot of meetings and record keeping, she wondered why the Gods were only twenty-one. And why Instruments (her Lord) and Carlsbego were not there.*

*This made Zarr speak on the matter. She said that those Lords of hers are Creature Makers not Gods. And that Gods are Lords who know both earth making and creature making.*

### *Chapter Three*

*It was time to update the lists. The Lord in charge was Prophecy (the Lord of Prophecies). She gave strange news. It was that Carlsbego is now the best Creature Maker.*

Brulo the hardworking (a God) and another Unknown God didn't agree at first. They decided that it should be checked by some other group of Judges.

Carlsbego still came out on top. Aanika was happy about Carlsbego.

## Chapter Four

After this news. God spoke to Jesus Christ (also known as Anyan) and Gree to teach these sayings to every young child.

Sorcero is one thousand years older than Vatti, yet Vatti is number two God and Sorcero is number three God.

*Also Instruments is three thousand years older than Carlsbego, yet Carlsbego is number one Creature Maker.*

*So an old man is not always better than a young man.*

# *Burnt in the Fire*

## *Chapter One*

*There was a problem in heaven among Creature Makers. Two books were written to solve this problem. One by an old man who wrote many things, and the second by a young man who wrote a few things.*

*Since there are two trillion books (according to Zarr), young creature makers picked the old man's book. Believing that he would have read more books.*

## *Chapter Two*

*About two thousand (2000) creature makers were taken to hell fire for making bad people. God was indeed angry.*

While they were being judged, Sorcero noticed that they all read the book by the old man and that was the cause of the problem.

God then apologized to the Creature Makers saying it was no fault of theirs.

God went to see the old man asking how he came to the ideas he put in his book. He said he had no money to test them.

Then God said why did you not say so. He said he wanted to sell quite a number.

And then the old man was destroyed in hell fire.

# *Best Friends*

## *Chapter One*

*Breakato was happy. She now realized that she had the power of Brulo. She was happy.*

*The power of Brulo is of awesome sights.*

*There were other problems in her life which made her unhappy. And that was about not having any friend she liked.*

*She prayed on it and God answered her. With the power of Sorcero God directed her to Moofes. And told her she would be among her best friends. Moofes had a full measure of the power of Sorcero.*

*She found Moofes to be a good person compared to the friends she had.*

*Both Breakato and Moofes graduated with a low average from the university.*

## *Chapter Two*

*Breakato saw her brother Aameka having a problem. The problem was that he was trying to make the company where he worked use another product than the one they were using. He could not.*

*Then, Breakato spoke to Aameka of Moofes. Saying she could solve his problem.*

*Aameka went to Moofes and explained his problem. Moofes first asked her Holy Spirit if Aameka was in the right. On receiving the answer that he was she helped Aameka. And the problem became a past one.*

## Chapter Three

Breakato's Holy Spirit taught her that she should always have call credits. Especially for emergency cases.

People around her always asked her for call credits, which pained her. But she kept on having call credits which solved some of her problems.

## Chapter Four

Breakato went to see her wealthy Uncle Mormonik. Mormonik was having a problem. The problem was that he wanted the government to put a Soldier's Barracks in an area where his factory was. This was to prevent theft. But it dawned on him that his money would not be able to solve this problem.

Mormonik was thinking of this problem when Breakato arrived.

On reaching Mormonik, she told him that if he does not increase the wages he pays his workers God would come and punish him.

He didn't believe her and it actually happened.

Mormonik then thought to himself. He had two factories and a bank. A lot of workers and yet, none of them was as good to him as Breakato.

He wondered how his money could get him a friend like Breakato.

# *Great Teachers*

## *Chapter One*

*Manuel was a carpenter. He wasn't the boss of his workshop, he worked under someone. He had the power of Sorcero.*

*His destiny (job from God) was to make sure young children study their God given courses. His other destiny was to make young children read important books.*

*And this he did well. After some years of doing this, God sent a dream calling him "Great Teacher".*

## *Chapter Two*

*Manuel made Memenaka study his God given course. Which was accountancy.*

*Memenaka wanted to study something else. But after being in the university, he found this course to be more interesting to him. And it was something he could easily do.*

*In Memenaka's set was Accooa. Accooa always had high scores. His scores usually reached 90 in some courses.*

*This made Memenaka pray to God asking that God should grant him the brilliance of Accooa.*

*God investigated the situation and found out that Accooa was a factory boss and not an accountant. This he told Memenaka.*

## Chapter Three

God went to the place where Accooaa was living before he entered the university. The head teacher (Aamorou) in the style of Sorcero was ok.

Then God thought that no crime had been committed since he saw that Aamorou was overwhelmed with duties.

God provided Aamorou with more men, and he moved Accooaa from his body to another body, and dropped some accountant into Accooaa's previous body.

Accooaa's father noticed a drop in his son's average score and wished he could get more serious. But his son was never able to achieve the previous high scores.

# High God

## Chapter One

God spoke to Jesus Christ that he wanted to create High God. Who would be more expensive, and so called High God.

Jesus Christ said it would be a bad idea because with patience anything High God would make you would be able to make.

God also spoke of the same matter to Zarr ( the Lord of Records), Mozo (thought of Prophecy) and Odinna. And the matter was taken to be voted upon.

Jesus Christ lost and High God was created.

## Chapter Two

When High God was young he always complained how Jesus Christ never hung out with him. Maybe something was wrong with him, he thought.

Later on, Jesus Christ thought of eggs. A meat that would come without a skeleton thereby reducing the cost of meat. He approached God to make it for him.

God did but it came out that 40% of the eggs would be good and the remaining bad.

Jesus Christ lamented that it should not be released since it would be uncomfortable to the farmers. But God wanted it released. And it became a huge argument.

*They were still arguing when High God brought good eggs. This mended the relationship between High God and Jesus Christ.*

# Oweile

## Chapter One

In heaven, God went looking for Gartogade (Computer Lord), his friend. On getting to his home he asked where his friend was.

Many people responded that they were all his friends. And God then said "How much help have you rendered me. Especially great help."

And then they kept quiet and took him to Gartogade. God spoke to Gartogade telling him to release one of his factories on earth because no one had thought of it and his children needed it.

Gartogade went to check the list of best factory workers on earth (with the Lord of Records). Oweile

came out on top and was given the designs of the factory.

## Chapter Two

Oweile had a subordinate called Aliman, who handled a factory unit in a different town. This factory unit was still under the factory design Gartogade gave to Oweile.

Aliman hated Serbrina, his cleaner. This was because Serbrina was more qualified than being a cleaner yet she applied for the post of cleaner.

She came more than once asking for money but Aliman never gave it to her.

Aliman had a problem and prayed to God concerning his problem. God didn't respond quickly and the

matter was getting worse. When God responded he said "Why did you not help Serbrina. If you do not help her, I would not help you."

### Chapter Three

Oweile wanted to start another factory and prayed to God concerning the factory asking for designs. In his prayers he included "You said we should learn from the Old ones or those who have gone before us."

God told Oweile that he should pick a factory similar to the one he was given, so that it would be easier for him. This is the law of Gartogade.

Since it was against God's plans for Oweile to start the factory he intended, he decided to look for another factory similar to the one he was given.

# *The Best*

## *Chapter One*

*There was a wealthy man in the area where Janjugu lived. The wealthy man's name was Dondiem.*

*Janjugu was indeed brilliant. He asked Dondiem for funding for a factory. The factory's produce would have two components. Dondiem willingly agreed.*

*So also did Vattimutau live close to Dondiem. He asked Dondiem for funding for a factory. The factory's produce would have seven components. Dondiem complained of its difficulty since the number of components tells its difficulty.*

*After a lot of arguing and praying by Vattimutau, Dondiem agreed.*

## Chapter Two

Vattimutau had a problem. By strange or unexplainable means Breako heard of his factory intent. Breako wanted the factory to be in his area. But Vattimutau wanted the factory in another area, an area which God picked for him.

Breako was a son of Possesodum.

It was by the grace of Sodiolam (son of Sodica) that Breako left Vattimutau and was never found again.

## Chapter Three

Years after the two factories were established, God loved the two factories and decided to reward the factory bosses.

To Janjugu he gave three sames and to Vattimutau he gave eleven sames.

Janjugu complained about how they were both factory men and that why should God give more to Vattimutau. God responded that the number of components of a factory object tells us of its difficulty.
